

Buy America Act Statement

Project Details

Project: _____

Location: _____

Date: _____

BABA Compliance

MRI Steel Framing is in compliance with the Build America, Buy America Act (BABA) which is part of the Infrastructure Investment and Jobs Act. These regulations require 100% domestic-made steel be used in your eligible construction project. This means that all steel making processes, excluding the extraction and mining of the raw materials, must take place in the United States.

MRI Steel Framing purchases steel coils from steel mills, which are used to manufacture our cold-formed steel framing products, from plants that are located in the United States. Additionally, all of MRI Steel Framing's production processes take place in our production facility located in the United States.

As such, MRI Steel Framing confirms that it is in compliance with the Buy America Act 88 CFR 57750 (2 CFR part 184 and 200).

If for any reason the above compliance statements change, MRI Steel Framing will immediately notify relevant members of the project design and construction teams in affected projects.

If you require further verification, such as steel mill certificates, please contact your MRI Steel Framing representative.
